PROFESSIONAL SUMMARY

Computer Science and Business Systems undergraduate with hands-on experience in Java, SQL, Spring Boot, REST APIs, and web development. Strong foundation in Object-Oriented Programming, Data Structures and Algorithms, MySQL, Git, and application development.

EDUCATION

Sri Manakula Vinayagar Engineering College **2023 - 2027**
B.Tech, Computer Science and Business Systems **CGPA: 7.48**

Amalorpavam Higher Secondary School **2021 - 2022**
Higher Secondary (HSC) **Score: 76%**

Amalorpavam Higher Secondary School **2019 - 2020**
Secondary School (SSLC) **Score: 70.8%**

SKILLS

- **Programming Languages:** Java, SQL , Python, JavaScript
- **Database:** MySQL ,Supabase
- **Frameworks & Specialisation :** Spring Boot, Spring Data JPA, Hibernate, REST APIs, JDBC
- **Tools:** Git, Postman, Maven
- **Languages:** English (Proficient), Tamil (Native)
- **Soft skills:** Effective Communication, Team Collaboration & Leadership.

PROJECTS

Smart Hospital Management System (Individual Project) GitHub

- Developed a Spring Boot based REST API for managing hospital operations using layered architecture.
- Implemented department and doctor modules with CRUD operations and relational entity mapping.
- Implemented DTO-based request/response handling, validation, and exception handling.
- Used Spring Data JPA and MySQL for database persistence and relationship management.
- **Tech Stack :** Java, Spring Boot, *REST API*, *Spring Data JPA*, SQL

Plaro - Educational Social Media Application GitHub

- Developed an educational social media application for creating, sharing, and exploring educational content. Included an AI chatbot to ease navigation.
- **Role :** AI/ML Python integration ,project organizer
- **Tech Stack :** Flutter, Dart, Riverpod, Supabase

ACHIEVEMENTS

- **NASA Space Apps Challenge 2024** [Participant / Project: Astrogators].

CERTIFICATIONS

- Practical GitHub Actions
- Google Certified Technical Support
